

# MK-FOUR WIRE TRACKER

## DESCRIPTION

- Multi-purpose lines of communication scanning and testing
- Find wire on all types of connected operating Ethernet switch/ router/ PC terminal
- Telephone wire finding function - Rapidly find the target wire from among plenty of telephone wires
- Network wire finding function - Rapidly find the target wire from among plenty of network wires
- Electric wire finding function - Rapidly find the target wire from among plenty of electric wires
- Network wire collation function - Network wire sequence collation
- Others function - Open circuit or short circuit testing function
  - DC level testing function
  - Low voltage alarm function
  - Earphone function
  - Volume adjusting function
  - Energy-saving

## SPECIFICATION

Item	Specification	
Product Name	Wire tracker	
Power Supply	DC, 9V battery	
The max working current	Emitter	≤ 10mA
	Receiver	≤ 30mA
Signal transmission format	Multi-frequency impulse	
Signal output electric status	8Vp-p	
Distance of signal transmission	≥ 3km	
Appearance dimension	Emitter	126X49X34, mm
	Receiver	155X39X25, mm
	Whole set	270X165X45, mm
Weight	Emitter	0.051kg
	Receiver	0.059kg
	Whole set	0.345kg

## APPLICATION

### Applicable Users

Telecom post bureau / net bar / telecom engineering companies / network engineering companies / power supply / army and other departments requiring wire.

### Applicable Scope

Wire engineering of telecom network and regular maintenance work; network line engineering of computer; other wire engineering and maintenance.

## THE LIST OF PACKAGE

1. Emitter	1 piece	5. RJ11 telephone cable	1 piece
2. Receiver	1 piece	6. Cable with crocodile clamp	1 piece
3. 9V battery	2 pieces	7. RJ45 network cable	1 piece
4. Earphone	1 piece	8. Instruction manual	1 piece
